

Value Investing in the Real Economy

Luceiro Capital Value Fund FI, (ISIN: ES0158707002) is a global equity investment fund with a Value approach.

The management team and investors are long-term investors with a focus on value creation in the real economy, and with the perspective of an entrepreneur focused on identifying quality companies with proven business models and sustainable competitive advantages whose intrinsic value is not reflected in their share price.

Who we are

Luceiro Capital was founded in 2020 as an independent private investment firm specialising in active investment in companies with high growth potential.

Luceiro Capital currently advises two investment strategies, Luceiro Capital Value Fund FI, a Value fund in listed companies, and Luceiro Capital Partners, a Private Equity vehicle focused on SMEs. The *investment philosophy* is the same in both funds

What we do

We provide an investment solution based on the Value Investing philosophy, acquiring stakes in high quality listed companies with favourable prospects and dynamics. We focus on delivering long-term, sustainable returns for our investors, with a sense of ownership of the businesses in which we invest.

How we do it

We invest most of Luceiro Capital's own capital and its partners' assets in the funds we advise.

We are partners with the participant, and we work every day to manage investments within our competence, focusing on the sectors and companies in which we have knowledge and experience.

Partners with Renta 4

Luceiro Capital Value Fund, FI was created through an investment advisory agreement between Luceiro Capital and Renta 4. Luceiro Capital acts as investment advisor to the fund, which is under the management of **RENTA 4 GESTORA, S.G.I.I.C., S.A.** and under the depositary of **RENTA 4 BANCO, S.A.**

Renta 4, an entity specialising in investment products and services, began its activity in 1986 and today enjoys the trust of more than 100,000 clients: retailers, high net worth individuals, companies, institutions and financial institutions. It has been listed on the stock exchange since 2007 and currently has assets under administration or management in excess of 30,000 million euros. It is the only independent investment services financial institution listed on the Spanish stock exchange.

The agreement between **Renta 4** and **Luceiro Capital** allows the strategy to be ported to an **International Equity Investment Fund**, a financial product that allows investors to **invest in the strategy, both individuals and companies or institutions**, with a minimum investment amount (**from EUR 100**).
